

# 2021 HONOR AWARDS

## ARCHITECTURAL HONOR AWARDS INFORMATION PACKET

### FREQUENTLY ASKED QUESTIONS

#### **DO YOU HAVE TO BE AN AIA MEMBER TO SUBMIT FOR THE AIA DETROIT HONOR AWARDS?**

No, but there are lots of great reasons to be a member of the AIA, including discounted registration fees for award submissions! Visit [aia.org/join](http://aia.org/join) to discover the right membership for you and see all the benefits that come with being a part of the AIA.

#### **CAN STUDENTS SUBMIT SCHOOL WORK FOR THE AIA DETROIT HONOR AWARDS?**

Yes! Currently enrolled students may submit studio projects in the **CONCEPTUAL** category. And if you are a member of the American Institute of Architecture Students (AIAS) or the National Organization of Minority Architecture Students (NOMAS), you qualify for AIA member pricing on your project registration fee! Please see Page 2 for the registration fee structure.

#### **CAN A PROJECT BE RECOGNIZED FOR MORE THAN ONE PROJECT TYPE?**

In the **BUILT** category, the Jury may decide to award a submission under one of the Project Types listed on page 5. Projects awarded in the **BUILT** category can only be awarded under a single Project Type.

If a project submission is awarded in the **CONCEPTUAL** category, it will be classified as a Conceptual Project award.

Once a project is awarded in either in the **BUILT** or **CONCEPTUAL** category, it cannot be submitted again for the AIA Detroit Honor Awards.

#### **CAN MORE THAN ONE PROJECT BE AWARDED IN EITHER THE BUILT OR CONCEPTUAL CATEGORIES IN A SINGLE YEAR?**

Yes, there can be multiple winners in both the **BUILT** and **CONCEPTUAL** categories in any given year, at the discretion of the Jury.

#### **ARE THE SUBMISSION DELIVERABLES FOR A PROJECT ANY DIFFERENT FROM LAST YEAR?**

The submission deliverables have changed slightly to better-incorporate AIA's Framework for Design Excellence and accommodate for a virtual Celebration of Architecture Broadcast.

# SUBMISSION CATEGORIES

A SIMPLE WAY TO CATEGORIZE YOUR PROJECT SUBMISSIONS

Once again utilizing the simplified structure from the 2020 Architectural Honor Awards, AIA Detroit will only need to know if the project is Built or Conceptual. This allows for the best of any design to be judged equally. The Jury may decide to assign a more specific category to the winning projects.

	BUILT	CONCEPTUAL <sup>1</sup>
CHOOSING A CATEGORY	Submit <b>completed, built architectural works</b> to the BUILT category	Submit <b>unbuilt architectural works</b> to the CONCEPTUAL category
PURPOSE + RECOGNITION	To recognize diverse architectural projects that are constructed and range in both scale and speciality.	To recognize unbuilt architectural projects that inspire us, further our understanding of design, and encourage our creative exploration of the built environment.
PROJECT TYPES	<ul style="list-style-type: none"> <li>• Buildings</li> <li>• Interiors</li> <li>• Historic Rehabilitation</li> <li>• Master/Campus Plans</li> <li>• Single-Family Residential</li> <li>• Small Projects</li> <li>• Urban District Plans</li> <li>• Technology-Focused</li> </ul>	<ul style="list-style-type: none"> <li>• Competition Entries</li> <li>• Professional Research</li> <li>• Student/Thesis Work</li> <li>• Unbuilt Projects</li> <li>• Master/Campus Plans</li> <li>• Urban District Plans</li> </ul>

<sup>1</sup>Projects **AWARDED** in the CONCEPTUAL category **may not ever** be submitted into the BUILT category.

**REGISTER A PROJECT** Complete registration before **11:30pm on May 28, 2021.**

# JURY + AWARDS

## THE JURY

The Jury is based out of a different city every year (outside of Michigan) selected by the AIA Detroit Executive Committee, and typically contains 4-6 individuals from various design backgrounds.

The Jury shall have the sole authority to determine which and how many awards are justified in each Category. Projects shall be considered on their own merits regardless of size, scope or cost. As previously stated, the Jury will be instructed to carefully consider responses to the questions regarding the Framework for Design Excellence (see **page 9**). The Jury has the discretion (but is not obligated) to award submissions under the following Project Types in the **BUILT** Category.

### **BUILDING**

Projects that have completed construction, comprised of a single or related group of buildings. Projects may include new construction, renovations, and historic preservation projects.

### **HISTORIC REHABILITATION**

Projects that maintain historic character of existing buildings or neighborhoods through contextually-sensitive renovation, additions, repairs or restoration.

### **INTERIORS**

Projects that involve the interior design of spaces in new or existing buildings.

### **MASTER PLANNING**

Projects that create dynamic, conceptual layouts to guide future growth and development that may be long-term.

### **SINGLE-FAMILY RESIDENTIAL**

Projects in which a stand-alone structure with its own lot is intended for single-family habitation..

### **SMALL PROJECT**

Projects of less than 5,000 square feet.

### **TECHNOLOGY**

Projects that advance the theory and practice of architecture through the innovative use of technology, or a project whose architectural expression could not have been realized without technology.

### **URBAN DESIGN**

Projects that focus on relationships between buildings and on the spaces they create in between each other in an urban setting. Such projects should focus on the physical form, economic functions, and social impacts of the urban environment and on the location of different activities within it.

# PROJECT STORY DETAILS

REQUIRED FOR ALL PROJECT SUBMISSIONS

## INCORPORATING THE FRAMEWORK

The Framework for Design Excellence represents the defining principles of good design in the 21st century. Comprised of 10 principles, it seeks to inform progress toward a zero-carbon, equitable, resilient, and healthy built environment. It is intended to be accessible and relevant for every architect, every client, and every project, regardless of size, typology, or aspiration.

All 2021 AIA Detroit Architectural Award **applicants must answer at least 3** of the following Framework questions in their PROJECT STORY. The Jury will be instructed to look for this information and heavily base their decisions off the Framework's representation throughout the JURY PRESENTATION.

1. Design for **Integration**: What is the big concept or purpose behind this project and how did sustainability inform the design concept?
2. Design for **Equitable Communities**: How does this project contribute to creating a diverse, accessible, walkable, just, human-scaled community that promotes inclusion and social equity?
3. Design for **Ecology**: In what ways does the design respond to the ecology of its place?
4. Design for **Water**: How does the project relate to the regional watershed?
5. Design for **Economy**: How does the project efficiently meet the program and design challenges and provide "more with less"?
6. Design for **Energy**: Is the project energy-efficient and sustainable while improving building performance, function, comfort, and enjoyment?
7. Design for **Wellness**: How does the design promote the health and comfort of the occupants?
8. Design for **Resources**: How did the design team optimize the amount and makeup of material used on the project?
9. Design for **Change**: Is the project resilient and able to adaptate to future uses or changing markets?
10. Design for **Discovery**: What are the lessons learned throughout the design, construction, and occupancy of a previous architectural work, and how have these lessons been incorporated into this project?
